huile spray

If you take a bottle with clean, cylindrical lines and add to that a spray fitting then that is big news: because it becomes possible to vaporise or nebulise liquids such as balsamic vinegar, flavoured oils, condiments and spirits to flavour all manner of dishes, confections and ices.

Truly this is a revolution.

The vaporiser is finished with fittings coloured gold, silver or black. Available in 100ml and 200ml in extra white flint glass and shortly to be made available in 250ml in half white and Verdetrusco®

Rigorously Made in Italy.
